#### WKS151/16 TENDER 056-16/17 – RIVERSIDE DRIVE FOOTPATH UPGRADE

#### BACKGROUND:

FILE REFERENCE:	P1033253
REPORTING UNIT:	Construction
RESPONSIBLE DIRECTORATE:	Construction and Maintenance
DATE:	18 November 2016
MAP / SCHEDULE:	Schedule 1 – Riverside Drive Footpath Upgrade Layout
	Plan
	Confidential Schedule 2 – Tender Assessment Matrix

With the opening of Elizabeth Quay, it is noted that there is currently no footpath link to support the pedestrian movement from the on-street parking bays and bus bays along Riverside Drive between Barrack Square and Governors Avenue.

The footpath upgrade works are intended to provide a safe and comfortable environment for the bus tour customers visiting Elizabeth Quay thus directly improving economic activity within this City precinct.

#### LEGISLATION / STRATEGIC PLAN / POLICY:

Legislation	Local Government (Functions & General Regulations) 1996 Part 4 – Tenders for Providing Goods and Services
Integrated Planning and Reporting Framework Implications	Strategic Community PlanCouncil Four Year Priorities: Getting around PerthS4Enhance Accessibility Including Parking

#### Policy

Policy No and Name: 9.7 – Purchasing Policy

#### DETAILS:

#### **Technical Requirements and Background**

The project objective is to provide a new hard standing for the bus bay, a new 143 metre long footpath to the east of Barrack Square and new permanent vehicular access for the WA Rowing Club.

The existing vehicular access was constructed as a temporary construction access for the nearby hotel development site. With the hotel forward works to be completed in December 2016, this access will now be reconstructed to serve as a permanent access for the WA Rowing Club.

Due to a number of constraints imposed by other surrounding construction activities construction of this project is required to commence in January 2017. The hotel development site will be demobilising their 80 tonnes crane off site by mid-December 2016 and there is a planned ATCO Gas works along Riverside Drive and Plain Street between February to May 2017. The works therefore have a limited window of opportunity during January and early February 2017.

#### **Asset Write-Off Implications**

The asset disposal value is \$44,474.53.

#### Communications

A communications plan will be developed, and this will be implemented following Council approval of the works. Consultation with the affected stakeholders is ongoing.

The communication of these works to the wider community will commence early December 2016.

#### **Contract Arrangements**

The works will be delivered under a lump sum contract arrangement. Only partial road closures will be permitted during construction.

Working hours will be Monday to Sunday, 7.00am and 7.00pm. The construction is anticipated to commence on 9 January 2017 and the preferred contractor is currently indicating 11 February 2017 as the completion date.

#### Summary of Submitted Tenders

Three lump sum offers were received through the City of Perth's electronic tender website from the following contractors on 20 October 2016:

- Civcon Civil & Project Management Pty Ltd (\$204,565.98 exc. GST);
- Menchetti Consolidated Pty Ltd T/As MG Group WA (\$264,966.74 exc. GST); and
- MXMLXX Pty Ltd ATF PaveWA Holding Family Trust T/As Pave WA and Access Brickpaving (\$215,259.00 exc. GST).

#### Tender Assessment and Evaluation Summary

The submissions received were assessed against the following six criteria:

- SC1: Management and Personnel;
- SC2: Project Appreciation and Methodology;
- SC3: Relevant Experience;
- SC4: Safety and Risk Management;
- SC5: Quality Control Procedures; and
- SC6: Tendered Price.

A Confidential Tender Assessment Matrix (Confidential Schedule 2) is attached. An evaluation summary against the non-priced based selection criteria has been provided below:

#### Civcon Civil and Project Management Pty Ltd

Employees allocated for this tender have extensive experience in major projects within confined work zone but the entity has not provided information demonstrating specifically how it would manage the public traffic volume (both pedestrian and cyclists) through a live work site.

The entity's proposed work zone area indicated that two businesses would be in total isolation and therefore at risk of losing patronage throughout the construction period. This submission has therefore not demonstrated a full understanding of the project brief.

#### Menchetti Consolidated Pty Ltd T/As MG Group WA

The submission is generic and did not address the project's specific requirements. The lack of construction management plan, stakeholder management plan, traffic management plan and communication plan has raised concerns whether the project can be delivered to the satisfaction of the City whilst keeping the affected businesses operational during the construction period.

I:\CPS\ADMIN SERVICES\COMMITTEES\3. WKS\161129WKS - MINUTES.DOCX

The entity has extensive brickwork paving experience but also tendered the highest price. The submission has neither demonstrated value for money nor the understanding of the project brief.

### MXMLXX Pty Ltd ATF PaveWA Holding Family Trust T/As Pave WA and Access Brickpaving

The entity has submitted a high quality methodology including a communication plan demonstrating a full understanding of the project brief. It addresses the complexity of the proposed site whilst keep the adjacent dual use path open for public use.

Part of the project brief requires relocation of the existing irrigation system away from the newly constructed footpath. The entity has submitted an additional maintenance plan to water the plants, gardens and lawn during the construction period over the summer season.

The price submitted is the second lowest and demonstrates the best value for money as well as the best understanding of the project requirements.

#### Pre-Tender Estimate

The approved budget was \$185,000 prior to the completion of the detailed design package and cost estimate exercise. This approved budget includes a contribution from MRA of \$7,826.65 exc. GST, to provide a permanent access to the Rowing Club as part of the Elizabeth Quay Project.

The original budget estimate was not based on a formal estimating process, but assumed that the works would be staged to suit available budgets. Since that time the constraints of adjacent construction works have limited the options to stage the works. The staging will also result in an additional cost burden for repeat mobilisations and traffic management. Given there are savings on other capital works projects it is now recommended that the City undertake the full project scope now, and not stage it.

The pre-construction estimate cost including staff costs for the full project is \$287,737. This represents a budget shortfall of \$102,737. The pre-construction estimate includes 10% contingency, project management staff costs and the shortfall on the submitted tender price.

The additional funds are proposed to be sourced from CW 2002, Parliament Place Road Reconstruction where a significant surplus is available following award of the works.

#### Combined Qualitative and Priced Based Assessment Ranking

The table in Confidential Schedule 2 details the relative scores of the three submissions when both the qualitative and price based criteria were taken into consideration.

#### FINANCIAL IMPLICATIONS:

ACCOUNT NO: BUDGET ITEM: BUDGET PAGE NUMBER: BUDGETED AMOUNT: AMOUNT SPENT TO DATE: PROPOSED CONTRACT COST: CONTINGENCY (10%) FUTURE CITY COSTS	CW - 1962 Riverside Drive Footpath Upgrade 38 \$ 185,000.00 \$ 22,177.00 \$ 215,259.00 \$ 21,526.00 \$ 28,775.00

AVAILABLE BALANCE:	\$ 1,073,000.00
FUNDS TRANSFER TO CW 1962	\$ 102,737.00

All figures quoted in this report are exclusive of GST.

#### COMMENTS:

The offer provided by MXMLXX Pty Ltd ATF PaveWA Holding Family Trust T/As Pave WA and Access Brickpaving (Pave WA) demonstrates the best value for money given that they have scored the highest when the tender price component is taken into consideration with the six qualitative selection criteria.

Pave WA has considered the wellbeing of adjacent City's assets impacted by the ongoing construction activities during summer months and identified a feasible mitigation solution. This will safeguard City's assets against further damage or unnecessary replacement arising from the on-going construction activities.

There is a high level methodology and communication plan in place to notify the surrounding businesses and affected bus and tour operators throughout the construction period as well as keeping the adjacent dual shared path open for public usage.

Pave WA has demonstrated their understanding of the project brief and they have extensive paving experience through working on Adelaide Terrace footpath maintenance works with City's Street Presentation and Maintenance Unit (SPM).

Pave WA has been evaluated as the preferred tenderer with the ability to complete the project within the required timeframe. Other benefits include minimising disruptions and inconvenience to external stakeholders and general public.

A modification to the award is proposed, which is to delete the replacement of the access way south of the dual-use path. This section of path has current works programmed by SPM for drainage upgrades and repairs following damage by other contractor accessing Barrack Square for the hotel development forward works.

Construction and Maintenance Directorate is seeking to avoid rework, and therefore proposes that the upgrade of the access way south of the dual use path by combined with (SPM) upgrade and repair works. This will also allow the best management of risks associated with the river wall which is directly adjacent to SPM's works area. SPM will complete the relevant portion of the works, charged against CW 1962 \$20,000.00 and this portion of work would be deleted from the contract scope awarded to Pave WA.

Moved by the Lord Mayor, seconded by Cr McEvoy

That Council BY ABSOLUTE MAJORITY:

- 1. approves the most suitable tender, being that submitted by MXMLXX Pty Ltd ATF PaveWA Holding Family Trust T/As Pave WA and Access Brickpaving, for the Riverside Drive Footpath Upgrade (Tender no 056-16/17) at a lump sum price of \$215,259.00 (excluding GST);
- 2. notes that the expenditure in part 1 above will be charged to the account number CW 1962;
- 3. notes that the allocated budget is insufficient, additional funds of \$102,737 are necessary to undertake the works as per attached plan Schedule 1;
- 4. notes that additional expenditure for the part 3 can be transferred from account CW 2002 \$1million Parliament Place Road Reconstruction, identified as having surplus funds;
- 5. notes that the construction is anticipated to commence in early January 2017.

#### WKS152/16 MOUNT STREET BRIDGE NODE ENHANCEMENT

#### BACKGROUND:

FILE REFERENCE:	P1033195
REPORTING OFFICER:	Annghi Tran
REPORTING UNIT:	Coordination and Design
RESPONSIBLE DIRECTORATE:	Planning and Development
DATE:	17 November 2016
MAP / SCHEDULE:	Schedule 3 – Consultation Results Report
	Schedule 4 – Final Concept Plan

The Mount Street Bridge Node – Draft Concept Plan was presented to the Council at its meeting held on the **1 November 2016**. Council endorsed the following resolutions:

- 1. approves the draft concept plan for the upgrade of Mount Street Bridge Node as detailed in this report and schedules;
- 2. approves the release of the draft concept plan for consultation with stakeholders; and
- 3. notes that the results of the stakeholder consultation, together with the final plans and cost estimate for progressing the physical works will be presented to the Works and Urban Development Committee for further consideration.

This report presents the results of the public consultation on the Draft Concept Plan and provides details on the Final Concept Plan included estimated costs and a proposed construction program.

#### LEGISLATION / STRATEGIC PLAN / POLICY:

Integrated Planning	Strategic Community Plan
and Reporting	Council Four Year Priorities:

Framework	Perth as	a Capital City
Implications	S5	Increase place activation and use of under-utilised
		space

#### **DETAILS**:

#### Draft Concept Plan External Stakeholder Consultation

Meetings where held with the following property owners and tenants directly adjacent to the site to present the draft concept plan:

- 24 Mount Street;
- 18 Mount Street;
- 22 Mount Street; and
- 98 Mounts Bay Road.

All stakeholders provided conditional support.

Schedule 3 documents the consultation responses.

#### Final Concept Plan

Key components of the enhancement will be:

Item	Comment
Reducing visual obstructions	Pruning and consolidation of the existing tall shrubs that are structurally unsound at both ends of the bridge will clear views and enable successful growth of proposed native planting.
Consolidation and relocation of parking bays	The proposed parking bay amendments have been approved by the Parking Working Group.
Display planting bed	The native planting display will be designed to enhance existing shrubs and trees. The display bed aligns with the objectives of the Intergovernmental Wildflowers WA initiative.
Main Roads WA (MRWA) verges	Working with MRWA, rejuvenation of the freeway embankments will include clearance of dead and dying vegetation, new native groundcover planting will be selected for colour and low maintenance.
Seating	New bespoke furniture integrated with lighting will be nestled under trees. These will be designed to align with the Florence Hummerston palette using low maintenance

#### WORKS AND URBAN DEVELOPMENT COMMITTEE

Item	Comment
	materials.
Lighting	Feature lighting will enhance planting, furniture and future public artwork.
Central Node Paving	The centre of the landscape node will feature quality paving consisting of Donnybrook sandstone with basalt edging, to be installed on a rigid concrete base to ensure longevity and ease of maintenance.
WIFI and CCTV	Provision for the future extension of the City's network.

With the Capital Square development currently under construction a small component of the works will need to be completed at a later date. These works, Stage Two, will include the following:

- WIFI and CCTV provision;
- new ACROD bay;
- new barrier kerbs;
- relocation of taxi bays; and
- resurfacing of asphalt.

A workzone area currently occupies the southern parking bays to facilitate the construction of the new Woodside building. Woodside anticipate their new premises will be completed by the end of 2018. The City will liaise with Woodside to finalise the kerbside parking layout.

#### FINANCIAL IMPLICATIONS:

ACCOUNT NO:	CW 1990
BUDGET ITEM:	Mount Street - Bridge Node
BUDGET PAGE NUMBER:	38
BUDGETED AMOUNT:	\$385,000
PROPOSED CONSTRUCTION COST:	\$280,773
PROPOSED DESIGN AND PROJECT	\$ 47,176
MANAGEMENT COST (FY 16/17)	
AMOUNT SPENT TO DATE:	\$ 16,410
PROPOSED COST:	\$344,359
BALANCE:	\$ 40,641

ANNUAL MAINTENANCE: TBC ESTIMATED WHOLE OF LIFE COST: TBC

All figures quoted in this report are exclusive of GST.

An independent quantity surveyor has estimate the above construction costs based on the 50% design documentation drawings. This includes a 10% contingency for unforeseen costs and latent site conditions.

In addition to this Capital works budget, the design and construction of bespoke furniture will be funded from the Greening the Landscape and Street Furniture budget.

Provision for the future extension of the City's WIFI network will be funded from the IT Optical Fibre Budget.

Stage Two will be completed at a later stage with a separate budget allocation in 2018/19.

#### COMMENTS:

The first stage of the construction for the enhancement of Mount Street Bridge Node is programmed to commence in April 2017. The works are anticipated to be completed by the end of June 2017. During the construction the focus will be on minimising disruption to pedestrians, vehicles, cyclists and businesses.

A communications plan will be developed to ensure that all stakeholders are adequately notified of construction and to deal with any specific needs around access requirements during the works.

#### Moved by the Lord Mayor, seconded by Cr McEvoy

#### That Council:

- 1. receives the results of the stakeholder consultation on the Mount Street Bridge Node Enhancement – Draft Concept Plan as detailed in Schedule 3;
- 2. approves the final concept plan for implementation as detailed in this report and Schedule 4 noting that construction is scheduled to be completed by 30 June 2017;

(Cont'd)

3. notes that a separate budget will be required in 2018/19 for Stage Two following the completion of the Capital Square development.

The motion was put and carried

The votes were recorded as follows:

For: The Lord Mayor, Crs Limnios and McEvoy

#### Policy

Policy No and Name: CP 9.7 Purchasing

#### DETAILS:

Tender 028-16/17 – Provision of Plumbing Services was advertised in the West Australian on Saturday, 20 August 2016. Tenders closed at 2:00pm on 8 September 2016, with the following tenders received:

- Fireball Enterprises Pty Ltd ATF The Trustee for the Talbot Family Trust T/A Affordable Plumbing and Gas Services (Affordable Plumbing and Gas Services);
- Bromar Nominees Pty Ltd ATF Altona Unit Trust T/A Altona Plumbing (Altona Plumbing);
- SYME, REGAN T/A Home Solutions (Home Solutions);
- Swift Flow Pty Ltd ATF The Swift Flow Unit Trust (Swift Flow Pty Ltd);
- Tunnel Vision (WA) Pty Ltd T/A Tunnel Vision (Tunnel Vision);
- Use Your Local Man Pty Ltd;
- PAC Developments Pty Ltd ATF The Campbell Allsworth Family Trust T/A Snap Plumbing and Construction Pty Ltd (Snap Plumbing and Construction Pty Ltd);
- REPIPE Pty Ltd T/A Repipe Pty Ltd (Repipe Pty Ltd);
- Rowson's Plumbing Services Pty Ltd
- Pride Plumbing and Gas Pty Ltd ATF The Pride Trust T/A Pride Plumbing and Gas (Pride Plumbing and Gas);
- Majestic Plumbing Pty Ltd;
- McDermott Group Pty Ltd;
- Boeing Holdings Pty Ltd;
- Brian Gregson Management Services Pty Ltd T/A Australian Utility Services (Australian Utility Services);
- Richpoint Pty Ltd ATF The Young Family Trust T/A HA Young Plumbing Contractor (HA Young Plumbing Contractor);
- Design Plumbing WA Pty Ltd ATF Bennett Family Trust & Polson Family Trust (Design Plumbing WA Pty Ltd); and
- Finestone Investments Pty Ltd T/A Ace Plus (Ace Plus).

This tender seeks to engage a panel of contractors to undertake planned and unplanned plumbing maintenance services for the City of Perth's buildings and facilities.

The City intends to establish a Panel Arrangement of between three and four plumbing services contractors and to endeavour, as far as possible, that each contractor receive sufficient amount of work whilst achieving economies of scale, however the City makes no guarantee that the City will purchase goods or services from any contractor under this arrangement.

Should a panel member leave the Panel, they may be replaced by the next ranked supplier determined in the value for money assessment should the supplier agree to do so.

I:\CPS\ADMIN SERVICES\COMMITTEES\3. WKS\161129WKS - MINUTES.DOCX

The Panel Arrangement period will initially be for three years commencing from the date specified in the letter(s) of acceptance. The Panel Agreement has one extension option of two years and subject to both parties' mutual consent to extend.

The tendered rates shall remain fixed for 12 months and then subject to review. On the anniversary of the Commencement Date, the Rates may be varied in accordance with the Perth Consumer Price Index effective as at the date of review.

The City received 17 tender submissions. The tender submissions were evaluated by the assessment panel based the following selection criteria:

#### **Response Times**

The City of Perth issues work orders to contractors on the basis of:

- 1. Urgent Response site attendance is required within one hour;
- 2. Priority Response work order to be completed within 24 to 48 hours; and
- 3. Routine Response work order where works are programmed in advance as agreed with the City of Perth.

Tender submissions were evaluated based on their methodology to accommodate the required response times.

The submissions which met the requirements of this criterion with no deficiencies were Swift Flow Pty Ltd, Snap Plumbing and Construction Pty Ltd, Rowson's Plumbing Services Pty Ltd, Majestic Plumbing Pty Ltd, Australian Utility Services, HA Young Plumbing Contractor; Design Plumbing Pty Ltd and Ace Plus.

#### Experience of Key Personnel and Company

Tender submissions were evaluated based on details provided regarding experience and qualifications of key personnel, similar works undertaken by the company and if the company is accredited by any relevant Plumbers Association (e.g. MPMSAA).

The submissions which met the requirements of this criterion with no deficiencies were Altona Plumbing, Swift Flow Pty Ltd, Snap Plumbing and Construction Pty Ltd, Rowson's Plumbing Services Pty Ltd, Majestic Plumbing Pty Ltd, Boeing Holdings Pty Ltd, Australian Utility Services, HA Young Plumbing Contractor, Design Plumbing WA Pty Ltd and Ace Plus.

#### Support Resources – Equipment, Material and Spare Parts

Tender submissions were evaluated based on details provided regarding their equipment, materials and availability of spare parts.

The submissions which met the requirements of this criterion with no deficiencies were Altona Plumbing, Swift Flow Pty Ltd, Snap Plumbing and Construction Pty Ltd, Rowson's Plumbing Services Pty Ltd, Pride Plumbing and Gas, Majestic Plumbing

Pty Ltd, Australian Utility Services, HA Young Plumbing Contractor, Design Plumbing WA Pty Ltd and Ace Plus.

- 15 -

#### Safety Management System

Tender submissions were evaluated based on details provided regarding their safety management practices including traffic management experience.

The submissions which the tender assessment panel considered to have met the requirements of this criterion with no deficiencies were Affordable Plumbing and Gas Services, Altona Plumbing, Swift Flow Pty Ltd, Snap Plumbing and Construction Pty Ltd, Pride Plumbing and Gas, Majestic Plumbing Pty Ltd, Australian Utility Services, HA Young Plumbing Contractor and Ace Plus.

Note: The OH&S assessment of Finestone Investments Pty Ltd T/A Ace Plus (Ace Plus) and Brian Gregson Management Services Pty Ltd T/A Australian Utility Services conducted by the City's Safety Officers concluded that these tenderers have not provided satisfactory information.

#### Quality Management System

Tender submissions were evaluated based on details provided regarding the company's quality management systems and practices that would be utilised in the contract to provide the City of Perth with a high level of customer service and accountability.

The submissions which met the requirements of this criterion with no deficiencies were Affordable Plumbing and Gas Services, Swift Flow Pty Ltd, Snap Plumbing and Construction Pty Ltd, Pride Plumbing and Gas, Majestic Plumbing Pty Ltd, Australian Utility Services HA Young Plumbing Contractor and Ace Plus.

#### Price

Tendered rates were assessed by estimating the number of hours of each type of call out used by the City in one year, and then using the rates submitted by each tenderer to assess the likely cost over one year. The lowest price was submitted by McDermott Group Pty Ltd, resulting in this company receiving a 5/5 score for Price. All other tenderers were given a score based on their price in relation to the cheapest tenderer.

#### The Assessment Matrix is attached.

The six highest scoring tenderers were (in order from highest score to lowest):

- 1. Majestic Plumbing Pty Ltd;
- 2. Richpoint Pty Ltd ATF The Young Family Trust T/A HA Young Plumbing Contractor (HA Young Plumbing Contractor;

- 3. Brian Gregson Management Services Pty Ltd T/A Australian Utility Services (Australian Utility Services);
- 4. Finestone Investments Pty Ltd T/A Ace Plus (Ace Plus);
- 5. Swift Flow Pty Ltd as Trustee for The Swift Flow Unit Trust; and
- 6. Rowson's Plumbing Services Pty Ltd.

Following the qualitative and quantitative assessments, a financial capacity assessment and an occupational health and safety assessment were conducted on each tenderer.

The OH&S assessment of Finestone Investments Pty Ltd T/A Ace Plus (Ace Plus) found that they have not provided sufficient safe systems of work information, nor a Safety Management Plan. Additionally, a plumbing license that they submitted a copy of with their tender submission expired in August 2016. It is not recommended that the City includes Finestone Investments Pty Ltd T/A Ace Plus (Ace Plus) in the panel.

The OH&S assessment of Brian Gregson Management Services Pty Ltd T/A Australian Utility Services found that they have not provided copies of licenses and qualifications and their safe work method statements were not of sufficient detail and quality. It is not recommended that the City includes Brian Gregson Management Services Pty Ltd T/A Australian Utility Services in the panel.

It is therefore recommended that Council appoint the following four tenderers to form a Panel Arrangement of contractors to provide plumbing services to the City of Perth:

- 1. Majestic Plumbing Pty Ltd;
- 2. Richpoint Pty Ltd ATF The Young Family Trust T/A HA Young Plumbing Contractor (HA Young Plumbing Contractor);
- 3. Swift Flow Pty Ltd ATF The Swift Flow Unit Trust (Swift Flow Pty Ltd); and
- 4. Rowson's Plumbing Services Pty Ltd.

The four tenderers have demonstrated that they meet the requirements of the assessment criteria and their tendered rates provide good value for money for the City.

#### FINANCIAL IMPLICATIONS:

Various operational expenditure accounts hold sufficient budget to cover the cost for each facility.

All figures quoted in this report are exclusive of GST. Properties spend for the last financial year was approximately \$240,000.

#### COMMENTS:

Following a thorough tender assessment process, the assessment panel recommends appointing four tenderers to form a Panel Arrangement to provide plumbing services to the City of Perth. The four recommended tenderers have demonstrated that they meet the requirements of the assessment criteria and their tendered rates provide good value for money for the City of Perth.

#### Moved by the Lord Mayor, seconded by Cr McEvoy

#### That Council:

- 1. accepts the most suitable applications, being those submitted by the following, to form a panel of pre-qualified suppliers:
  - 1.1 Majestic Plumbing Pty Ltd;
  - 1.2 Richpoint Pty Ltd ATF The Young Family Trust T/A HA Young Plumbing Contractor;
  - 1.3 Swift Flow Pty Ltd ATF The Swift Flow Unit Trust (Swift Flow Pty Ltd);
  - 1.4 Rowson's Plumbing Services Pty Ltd;

for the provision of plumbing services (Tender 028-16/17) for a period of three years, commencing 16 January 2017, with an option for a further two year extension, in accordance with the schedule of rates in Confidential Schedule 5 – Response Rates, subject to annual CPI increases; and

2. authorises the Chief Executive Officer to enter into a contract, or contracts, for the provision of the services.

The motion was put and carried

The votes were recorded as follows:

For: The Lord Mayor, Crs Limnios and McEvoy

Against: Nil

#### WKS154/16 TENDER 035 - 16/17 PROVISION OF SPECIALISED MAINTENANCE/REINSTATEMENT OF GRANITE/STONE FOOTPATHS, KERBS, CHANNELS, ROAD PAVEMENTS AND ASSOCIATED WORKS FOR THE CITY OF PERTH

#### **BACKGROUND:**

FILE REFERENCE: REPORTING UNIT: RESPONSIBLE DIRECTORATE: DATE: MAP / SCHEDULE:	P1033153 Street Presentation and Maintenance Construction and Maintenance 17 November 2016 Schedule 7 – Schedule of Rates - Rigid Pavement
	Schedule 8 – Schedule of Rates – Flexible Pavement
	Schedule 9 - Schedule of Rates – Road Traffic Management
	Schedule 10 – Lump Sum
	Confidential Schedule 11 - Price Modelling for Rigid Pavement
	Confidential Schedule 12 – Price Modelling for Flexible Pavement
	Confidential Schedule 13 – Price Modelling for Road
	Traffic Management
	Confidential Schedule 14 – Price Modelling for Lump Sum
	Confidential Schedule 15 – Scoring Price Criteria Confidential Schedule 16 – Tender Assessment Matrix

Tender 035 - 16/17 – Provision of Specialised Maintenance & Reinstatement of Granite/Stone Footpaths, Kerbs, Channels, Road Pavements & Associated Works, was advertised in the West Australian on Saturday, 3 September 2016. Tenders closed at 2.00pm on Thursday 20 September 2016, with the tenders received from:

- Lightning Brick Pavers;
- BOS Surveying;
- Pave WA;
- Civcon; and
- HCC.

The Street Presentation and Maintenance Unit maintains all footpaths, kerbs, channels, road pavements and associated works as part of the City's assets maintenance requirements. The maintenance of granite/stone is a specialised job and City maintenance personnel are not trained, and do not have expertise in undertaking special maintenance of granite footpaths, road pavement, kerbs, etc.

I:\CPS\ADMIN SERVICES\COMMITTEES\3. WKS\161129WKS - MINUTES.DOCX

The tender is divided in two main components: rigid and flexible pavement. The city has some areas in which the granite/stone paving had been installed with a concrete slab underneath (rigid pavement) and there are other areas of the city in which the granite/stone had been installed on a sand bed (flexible pavement).

The tenderer has also been requested to provide a lump sum price for "Modifications to 21 Granite/Stone Hydrant Pit Lids" – (9 in St. Georges Terrace; 5 in Hay Street Mall; 6 in Murray Street Mall; and 1 in Northbridge Piazza). As per details in Schedule 10. This Lump Sum activity is part of a joined agreement signed between Water Corporation, Department of Fire and Emergency Authority and the City of Perth. The pits to be modified are located within areas of rigid and flexible pavement.

The objective of this Tender is to engage a Contractor for this specialised maintenance not covered by any of the current maintenance contracts. The City of Perth is undertaking footpath upgrades with granite in high profile areas such as St Georges Terrace, Wellington Street, etc. and these areas require specialised maintenance that:

- improves the presentation and image of the Capital City;
- withstands occasional impact from vehicles; and
- provides a sustainable and long-term cost benefit solution to the City.

The Contractor is required to supply all equipment, plant and labour necessary for undertaking, efficient and timely maintenance of these works.

#### DETAILS:

A mandatory Site Inspection was held on 7 September 2016 to provide more clarity to Tenderers of the City's expectations about the works. This mandatory Site Inspection also provided the Tenderers the opportunity to ask any questions related to this Tender. The following six Companies attended the Site Inspection:

- Lightning Brick Pavers;
- BOS Surveying;

- Pave WA;
- Civcon;
- HCC; and
- Conplant.

From the six Companies which attended the mandatory Site Inspection, the City received five submissions from:

- 20 -

- Lightning Brick Pavers;
- BOS Surveying;
- Pave WA;
- Civcon; and
- HCC.

Tenderers were required to address the selection criteria in the specification to demonstrate their relevant experience, safety management expertise, resources (personnel, plant and equipment), methodology and any assumptions made. The Tenderers were also required to submit a Form of Tender which included a Schedule 10 of Rates and Lump Sum price for replacement of hydrant pit lids.

The criteria were:

- Relevant Company Experience in the Provision of Similar Works;
- Safety Management Expertise;
- Resources Personnel, Plant and Equipment;
- Methodology and Assumptions Made; and
- Price (see table below showing price ranking).

The five submissions were assessed and ranked according to the qualitative criteria with particular emphasis on relevant experience, safety management, predominantly in respect to relevant experience with similar work, resources available for the mentioned works and any proposed methodology to undertake the works. Each submission was assessed individually and ranked in order of merit against the qualitative criteria.

To facilitate the comparison between the offers, the panel agreed to undertake a "model" based on quantities from previous years which are likely to be used for subsequent maintenance. As such, the attached tables are showing four particular scenarios: Rigid pavement (scenario #1), Flexible pavement (scenario #2), Hydrant Pit Lids (scenario #3 - Lump Sum price) and Traffic Management (scenario #4). Estimated quantities were taken into account and a total value given based on those quantities.

The panel analysed the four scenarios, combining all of them to obtain a scoring price to be used as part of the evaluation matrix. The offers were ranked from one to five with their respective scores being taken.

I:\CPS\ADMIN SERVICES\COMMITTEES\3. WKS\161129WKS - MINUTES.DOCX

#### Lightning Brick Pavers

Lightning Brick Pavers submitted a thorough and concise offer with informative responses to all criteria. The panel considered this submission as conforming and for all four qualitative areas it met the criteria. It was the only proposal which met all criteria.

They have demonstrated the most important parameter which is their relevant experience reaching a high score in this criterion and have submitted an excellent explanation of their proposed methodology to undertake the works, and a thorough breakdown of each rate. They met all criteria being the only Tenderer reaching this level.

They demonstrated to have availability of resources and personnel with relevant experience in similar projects. Lightning Brick Pavers currently undertakes different works for the City of Perth and they have demonstrated good capabilities with enough resources and expertise in the field.

#### **BOS Civil**

BOS Civil submitted a fair offer with deficiencies and low scores in two criteria. The main concern with their submission was that they could not demonstrate their relevant experience in similar works as requested in the specifications. While BOS Civil is currently undertaking various works for the City, they could not demonstrate any substantial relevant experience with granite pavers which is the core activity of this Tender, except some minor maintenance work. However, the panel acknowledges that their price was the lowest from all proposals and also for all schedules (including the Lump Sum) and ranked first on price.

The panel is of the view that not having any of the four qualitative criteria met and only being competitive in price, it was not enough to qualify this as a good submission and therefore as best value for money.

#### Pave WA

Pave WA submitted an offer with only a few deficiencies which almost met criteria. Only one of the four criteria was met, being the relevant experience in similar works. The other three criteria were almost met. Pave WA is currently undertaking various works for the City installing the standard pavers across the City. The main issue was being within the two most expensive proposals with a considerable difference.

The panel is of the view that having only met one qualitative criterion and also being one of the two most expensive proposals, their offer could not be considered.

#### Civcon

Civcon's offer did not meet any of the four qualitative criteria with low scores in two of them. Only one criterion was almost met, being the safety management expertise. As

for the other three qualitative criteria, they have deficiencies and/or could not demonstrate to have enough resources (personnel, plant and equipment) to undertake the works.

This was the most expensive proposal under the combined scoring price criteria basis of the Tenders analysis. As such, the panel is of the view that having only met one qualitative criterion and also being the most expensive proposal, their offer did not have merits to be considered.

#### HCC

HCC submitted an offer with only a few deficiencies which almost met criteria. Only one of the four criteria was met, being the methodology and assumptions made. The other three criteria were almost met and they demonstrated good relevant experience, safety management expertise and also having enough resources (personnel, plant and equipment) to undertake the works.

HCC ranked second overall. The panel is of the view that having only met one qualitative criterion and being close in three of the other four, their offer could not be considered.

#### FINANCIAL IMPLICATIONS:

ACCOUNT NO:	CL711232107260
BUDGET PAGE NUMBER:	67
BUDGETED AMOUNT:	\$849,999.96
AMOUNT SPENT TO DATE:	\$133,578.10
PROPOSED COST:	\$271,234.04 (Estimated cost for the first year)
BALANCE:	\$445,187.82

All figures quoted in this report are exclusive of GST.

The proposed costs of \$271,234.04 includes projected estimated costs for maintenance of granite paving amounting to \$232,391.64 and \$38,842.40 at a lump sum price for the replacement of hydrant pit lids.

#### COMMENTS:

In conclusion of the tender evaluation process, HCC, Pave WA, BOS and Civcon has deficiencies in their offers, but Lightning Brick Pavers presented an excellent explanation of proposed methodology and relevant experience and met all criteria being the only offer which reached this level.

The prices submitted by Lightning Brick Pavers are higher in comparison with BOS Civil (the cheapest offer) for the main items. However, the panel is of the view that considering the profile of the area, the challenges, and the proposed methodology to undertake the works under this Tender, only Lightning Brick Pavers has

I:\CPS\ADMIN SERVICES\COMMITTEES\3. WKS\161129WKS - MINUTES.DOCX

demonstrated enough evidence of relevant experience and expertise to undertake the works.

- 23 -

The panel considers Lightning Brick Pavers as being capable of fulfilling the obligations required under the tender specifications. It is therefore recommended that Tender be awarded to Lightning Brick Pavers.

#### Moved by the Lord Mayor, seconded by Cr McEvoy

#### That Council:

- accepts the most suitable Tender, being that submitted by Lightning Brick Pavers for the Provision of the Specialised Maintenance & Reinstatement of Granite/Stone Footpaths, Kerbs, Channels, Road Pavements & Associated Works for a period of one year at the rates supplied in Schedule 7, 8 and 9 – Tender 035 – 16/17 – with the option to extend for a further two years with each subsequent year increase based upon the Consumer Price Index for the preceding year;
- 2. accepts the Lump Sum price of \$38,842.00 for "Modifications to 21 Granite/Stone Hydrant Pit Lids" as per Schedule 10.
- 3. authorises the Chief Executive Officer to enter into a contract, or contracts for the provision of services.

The motion was put and carried

The votes were recorded as follows:

- For: The Lord Mayor, Crs Limnios and McEvoy
- Against: Nil

# WKS155/16 MOTIONS OF WHICH PREVIOUS NOTICE HAS BEEN GIVEN

Nil

**5.38pm** The Manager Street Presentation and Maintenance and Manager Construction departed the meeting and did not return.

- 24 -

#### WKS156/16 GENERAL BUSINESS

#### **Responses to General Business from a Previous Meeting**

Nil

#### **New General Business**

#### 1. Graffiti

Cr McEvoy raised concerns regarding graffiti under the Sutherland Street bridge.

The Director Construction and Maintenance advised they are aware of the issue and are investigating.

#### 2. Green Spaces

Cr Limnios requested the administration assess the potential creation of green spaces in vacant areas of the city to compliment the Urban Forest Plan.

The Lord Mayor suggested transportable planter boxes.

The Acting Director Planning and Development advised the Green Infrastructure Plan is underway and the Coordination and Design Unit are working with the Parks Unit to create green spaces. It was also advised that there will be Council Briefing Sessions and updates on the Green Infrastructure Plan.

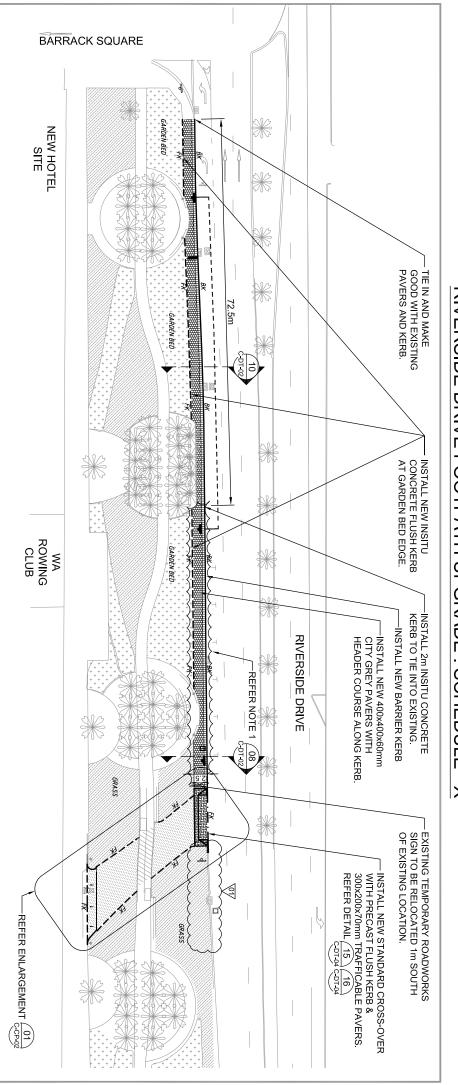

#### WKS157/16 ITEMS FOR CONSIDERATION AT A FUTURE MEETING

#### **Outstanding Items:**

#### WKS158/16 CLOSE OF MEETING

**5.52pm** There being no further business the Presiding Member declared the meeting closed.
