## 1.0 HERITAGE LIST

This list contains places of cultural heritage significance. Places will be added to the list occasionally and the local government should be contacted to confirm whether or not a place is being considered for inclusion on the list.

Places of cultural heritage significance that are held on the State Register administered by the Heritage Council of Western Australia are taken to be contained in this list. This includes all places within a Heritage Area defined in the State Register.

## 1.1 King Street Heritage Area

### INVENTORY OF PLACES WITHIN KING STREET HERITAGE AREA

Properties within the King Street Heritage Area have been assessed for their contribution to the cultural heritage significance of the Area. There are two groups that are considered to make a positive contribution and are referred to as 'heritage buildings' – those of considerable significance and those of moderate/some significance.

Buildings that are not considered to be contributory to the heritage significance must still comply with any local planning policy in regard to redevelopment in whole or part, as new works have the capacity to disrupt and detract from the Heritage Area if they are not managed appropriately.

## 1.2 Barrack Street Heritage Area

### INVENTORY OF PROPERTIES WITHIN BARRACK STREET HERITAGE AREA

Properties within the Barrack Street Heritage Area have been assessed for their contribution to the cultural heritage significance of the Area. They are classed here as either 'heritage' or 'non-heritage' buildings.

Non-heritage buildings are not considered to be contributory to the heritage significance of the Area but must still comply with any local planning policy in regard to redevelopment in whole or part, as new works have the capacity to disrupt and detract from the Heritage Area if they are not managed appropriately. Places with an RHP reference number are also listed in the Register of Heritage Places maintained by the Heritage Council of Western Australia (the State Register).

### 1.3 William Street Heritage Area

Places within the Heritage Area have been assessed for their relative contribution to the cultural heritage significance of the Area, based upon criteria established by the State Heritage Office. The Heritage Area boundary includes heritage and non-heritage buildings.

Heritage buildings are those that have been assessed as making a positive contribution to the Heritage Area. These are graded either as of considerable significance or as of moderate/some significance, according to their assessed relative level of significance.

Non-heritage buildings have been assessed as having no contribution to the cultural heritage significance of the Heritage Area. These places do not need to be retained, however new development on these sites should still comply with the general intent of the design guidelines so as not to detract from the overall significance of the Heritage Area.
