

Helicopter Landing Guidelines

Obstruction Permits for helicopter landings are considered on an individual application basis and are usually for tourism or promotional purposes. [Langley Park](#) is considered the best place for landings, however other locations may be considered.

A Helicopter Landing Application should be lodged with following information:

- Dates and specific times for each proposed landing.
- Location of the landing site (showing the exact area).
- A Traffic Management Plan/ Site Plan which details the location of the takeoff/ landing zone, ground crew, distances and pedestrian management to ensure public safety at all times
- A Certificate of Currency for Public Liability Insurance to the minimum value of \$10 million.

All operations are to be undertaken in accordance with Civil Aviation Safety Authority ([CASA](#)) regulatory framework.

Permit Process for Helicopter Landing Application

- Complete and submit the online Helicopter Landing Application.
 - The minimum period required for processing applications is five business days.
- Submit all required documentation as outlined above.

Additional Information

For flights over Derbarl Yerrigan / Swan River – permission is required from the [Department of Biodiversity, Conservation and Attractions](#).
