# CITY OF PERTH - Walk and Cycle Information

## How do you get around?

More people are choosing to walk, cycle and use public transport. This guide will help you get to know your local neighbourhood on foot, by bike or using public transport.

We encourage you to look closely at what's nearby and take the time to explore what our City has to offer.

**Wherever you are going, consider your options – that is what being TravelSmart is all about.**

To find out more about TravelSmart go to: [www.transport.wa.gov.au/activetransport](http://www.transport.wa.gov.au/activetransport)

## How do I use this map?

There are two sides to this map: one with walking and cycling information, the other with public transport routes. Both sides feature a wide range of handy services and amenities.

Feel free to follow these tips that have helped thousands make the most of their maps.

1. Mark where you live.
2. Mark where you frequently visit, like the shops, friends' homes and the train station.
3. See if you can get to these places by walking, riding your bike or catching a bus. If you can, highlight the routes for quick access when you're out and about.

To make even more use of this map, try the following:

- Look for places you never knew were there like parks and community centres.
- Each time you're looking for ways to get active, consider visiting somewhere new. You might just find something or meet someone that makes your day.

## Walking and Riding

Walking and riding are great ways to fit physical activity into your everyday life. Think about how you travel to work or the local trips you make such as going to the shops, dropping the kids at school or visiting friends. Which of these can you do by walking or riding?

This map identifies a range of bicycle friendly routes, including quiet streets, on-road bicycle lanes and shared paths. Pedestrians have priority on all shared paths and bicycle riders must give way. Remember to ring your bell to warn other path users when you are approaching.

The City of Perth is committed to creating cycle friendly city through the provision of a strategic cycle network and complementing infrastructure. The broader Perth Bicycle Network is also currently under revision. This map will continue to be updated as new infrastructure is delivered.

Due to more and more people riding bikes, plenty of bike racks have been installed in our City. Keep an eye out for the bike parking symbol on the map. If you come across a location within the City of Perth that really needs bike parking, please contact the City of Perth at [info.city@cityofperth.wa.gov.au](mailto:info.city@cityofperth.wa.gov.au).

For more information on great Perth walks and other useful walking information go to: [www.transport.wa.gov.au/walking](http://www.transport.wa.gov.au/walking)

For further cycling information including bike maps and upcoming community events go to: [www.transport.wa.gov.au/cycling](http://www.transport.wa.gov.au/cycling)

## Catching the Bus or Train

On the public transport side of the map, the thick coloured lines are bus routes. Bus stops are shown as coloured squares along the route. Follow where the bus goes by tracking the thick coloured lines.

You can plan your journey online (visit [www.transperth.wa.gov.au](http://www.transperth.wa.gov.au)), by phone (ring the Transperth Info line **13 62 13**) or by using the official Transperth app for iOS and Android.

To find out when buses depart from your local stop locate the five digit bus stop number at the top of your bus stop in the green panel. Once you know this number you can find out when your next service is due by texting the five digit stop number to **13 62 13** (Telstra, Optus and Virgin customers) or **0429 33 22 11**.

All buses on accessible routes are low-floor and have ramps for prams, wheelchairs and strollers. Accessible bus route numbers are in blue and pink boxes on the map and are marked accessible in the legend.

We hope you enjoy exploring what City of Perth has to offer.

Legend
